

NAME:JAYKUMAR.P.GOR  
ROLL NUMBER:16  
BATCH:SY-IT  
SUBJECT:DSA  
EXPERIMENT NUMBER:05

PROBLEM STATEMENT:

Implementation of Singly Linked List / Circular Singly Linked List and various operations for real-world.

CODE:

```
#include <stdio.h>
#include <stdlib.h>
#include <malloc.h>
```

```
typedef struct node
```

```
{
    int data;
    struct node *next;
```

```
} node;
```

```
node *createList();
```

```
node *Insert_beg(node *head, int x);
```

```
node *Insert_end(node *head, int x);
```

```
node *Insert_mid(node *head, int x);
```

```
node *Delete_beg(node *head);
```

```
node *Delete_end(node *head);
```

```
node *Delete_mid(node *head);
```

```
void PrintList(node *head);
```

```
void main()
```

```
{
```

```
    int choice, insert_option, delete_option, x;
```

```
    node *head = NULL;
```

```
    printf("Welcome to the implementation of the singly linked list ! \n");
```

```
    do
```

```

{
    printf("Please select an operation to perform from the below list \n");
    printf(" 1. Create a List \n 2. Insert a node \n 3. Delete a node \n 4. Print the existing
list \n 5. Exit \n");
    printf("Enter your choice: ");
    scanf("%d", &choice);
    printf("\n \n");
    switch (choice)
    {
    case 1:
        head = createList();
        break;
    case 2:
        do
        {
            printf("Select a position where you to want to insert new node \n");
            printf(" 1. Beginning of the List \n 2. At the end of the list \n 3. Insert in between
\n 4. Exit the insert operation \n");
            printf("Enter your choice: ");
            scanf("%d", &insert_option);
            switch (insert_option)
            {
            case 1:
                printf("Enter the data to be inserted: ");

Welcome to the implementation of the singly linked list !
Please select an operation to perform from the below list
1. Create a list
2. Insert a node
3. Delete a node
4. Print the existing list
5. Exit
Enter your choice: 1

Enter the number of nodes: 3
Enter the data: 5
4
8

Please select an operation to perform from the below list
1. Create a list
